+38% conversion rate

# Moving Beyond Chat

Ai is more than ChatGPT and Midjourney

1

## Ai Agents

Imagine an AI assistant that joins your team meetings and provides real-time data analysis and suggestions.

2

## Ai Workflows

Don't just use AI to write emails faster; use it to craft more empathetic communication that strengthens relationships.

3

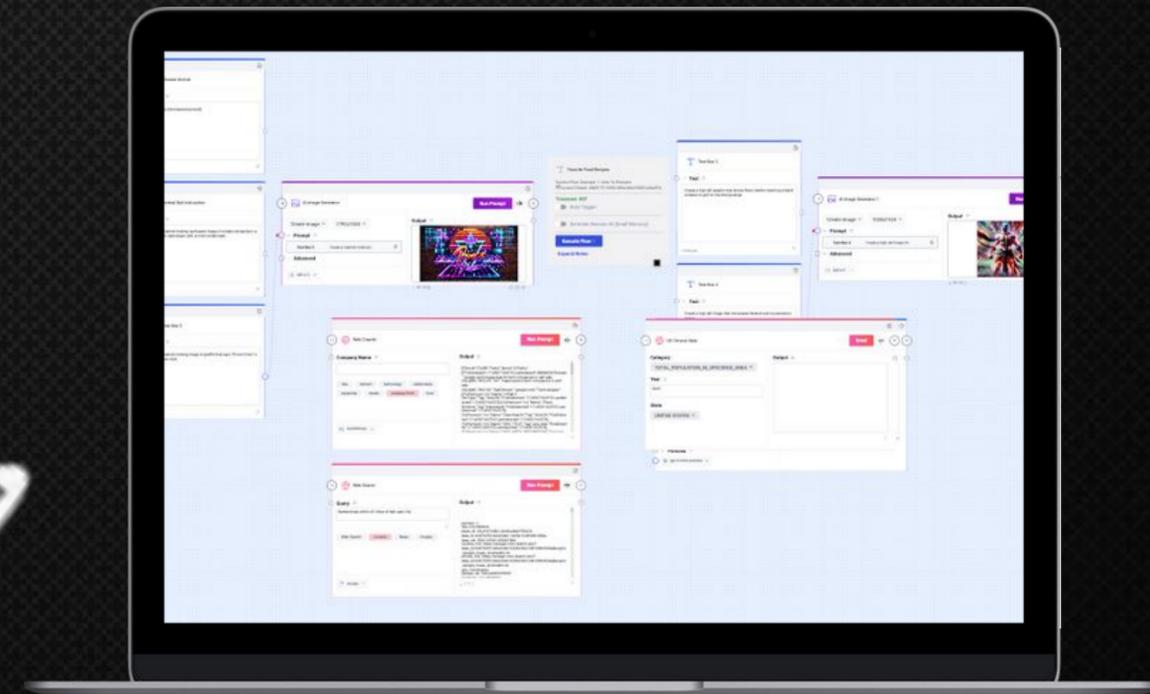

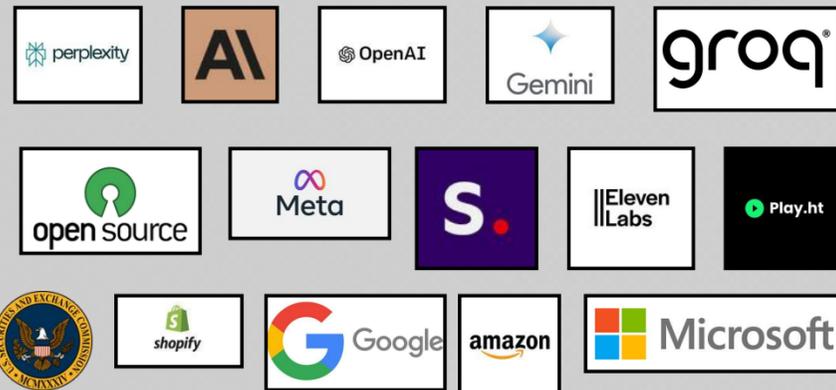

## 'Smart Chat'

Objective-based chat systems can be used to find business gaps and discover new opportunities.

# FluxPrompt

The Power of Unified Ai

Over 150 Ai systems  
and models

"This thing is as  
Impressive as, Hell."

Max F.

20yr Apple Engineering Director Vet

"Our entire department  
could and should use  
this"

Eric H.

11yr Amazon Product Lead

"Your platform fills a gap  
we need, but won't ever  
get to."

Adrian H.

10yr Google Biz and Engineer Lead

adoption of Ai is more than using a tool

it is thinking differently

# Thank You
